Havana, Cuba. December 1958. Two brothers find themselves on opposite sides of Castro's revolution. One dark night, after rescuing a leader of the revolt under house arrest, one brother finds himself hunted. The other, an influential attorney, must make a choice. Help his brother, placing the whole family at risk, or let Batista's forces capture him. His decision will haunt them both for the rest of their lives. How far will we go to protect those we love? Based on a true story, Incident at San Miguel takes us there.

This program is free and open to the community thanks to the generosity of the Jewish Federation of Northern New Jersey.
